Profile

Aspiring **Java Developer Intern** with academic and practical experience in backend development using Java and Spring-based technologies. Completed an industrial practice project as a Full-Stack developer with a primary focus on backend development, REST APIs, and database integration. Highly motivated to gain real-world experience and strengthen Java backend skills within a professional development team.

Education

09/2023 – 06/2026 **Bachelor's Degree in Software Engineering**, *Astana IT University*, Astana, Kazakhstan, 3rd year student

Relevant coursework:
- Object-Oriented Programming
- Algorithms and Data Structures
- Database Management Systems
- Software Design Patterns
- Software Architecture

Technical Skills

Programming Languages	Java (basic / academic), Python, C++, Go (academic exposure)
Backend Development	Spring Boot (academic project experience), RESTful APIs
Databases	PostgreSQL (basic)
Tools	Git (basic), Postman, Swagger UI

Projects

Teacher Review System, *Academic / Industrial Practice Project*

Web-based platform allowing students to evaluate university instructors through ratings and written feedback.
- Developed backend functionality using Java and Spring Boot
- Implemented authentication and role-based access (student, teacher, administrator)
- Designed REST APIs for managing reviews and users
- Integrated PostgreSQL database for data persistence
- Tested API endpoints using Postman
- Integrated backend with frontend components using React (basic level)

Technologies: Java, Spring Boot, Spring Security, PostgreSQL, REST API, GitHub, Postman, Swagger UI

Console Marketplace Application, *Academic Project – Software Design Patterns*

Terminal-based Java application simulating a marketplace.
- Applied object-oriented programming principles
- Implemented core software design patterns
- Focused on modular and maintainable code structure

Technologies: Java

Experience

06/2024 – 07/2024 **Industrial Practice / Academic Internship**, *Astana IT University*

Backend-focused Full-Stack development using Java-based technologies

Soft Skills

Responsibility, Willingness to learn, Teamwork (academic projects)
